

a Decision space at Site A

First candidate snapshot · 240 matched states

b Policy behavior

Air selected when faster air preempts a service

Ground also remains timely

	B1	B2	B4b
Site A	20/20	0/20	12/20
Site B	60/60	60/60	57/60
Site C	20/20	20/20	20/20

Air selections / matched states

c No candidate predicted timely

Observed late / matched states, per policy

A: 40/40

B: No states

C: 24/27

Decision space → policy choice → observed outcome

Snapshots match across B1, B2 and B4b in all 720 states; subsequent trajectories may differ.
